ESTABLISHED 1859

HICKMAN, FULTON COUNTY, KY., MAY 6, 1904.

VOLUME XXXIX, NO. 14

R. M. Potts Acquitted.

R. M. Potts, charged with murdering a negro in Fulton, was discharged yesterday morning in the Circuit Court, the jury sitting on his case having returned a verdict of not guilty. The trial occupied close on two days, every point being contested. The jury was out 30 minutes.

Sam Crossland, of Mayfield, defended, and Commonwealth attorney Hyster prosecuted.

PYRMONT.

Of all the matters here to the North, South, East or West. The justice bringing idea Of Equity is best. It can harm no human calling. And can least none of the rest. But brings Equal chance to all of them. And therefore it's the best.

Ours is a government by the people in theory, but by corporations in practice.

In these days men do not get things unless they go after them. The farmers do not go after them, and hence do not get them.

The cause of the farmer is the cause of the nation. Prosperity begins and ends with the farmer.

The man who is forced to pay one dollar more for an article than it is worth, or to sell it for a dollar less than it is worth, is to the extent of that dollar a slave.

The Third Power, representing the divinely established business of agriculture, when it is organized, will not need to ask favors; it will only have to insist on rights. Favors it does not want or expect. Rights it will have.

The American Society of Equity favors and urges good roads. Its local unions are composed of influential farmers. Influential farmers are progressive and will not follow any unworkable highway. Local unions will discuss these matters together with other reforms, and see that their wishes are honored.

Since the organization of Hickman Local Union No. 1, A. S. of E. other members have been secured at Cayce and State Line. Those from Cayce will be consolidated with Rush Creek, district No. 8. Those from State Line and vicinity with Montgomery district. The latter at a meeting to be held at Montgomery school house May 7, and those from Cayce at Rush Creek May 14.

In our items two weeks ago, we noted that 27 Local Unions of the A. S. of E. had been organized in this state. The Hon. H. B. Sherman, National Organizer of the Society, informs us that since that report went out 278 other unions had been organized making a total of 305. The members enrolled at head quarters, Indianapolis, Ind., averages 3,000 per day.

RUSH CREEK LETTER.

Sunshine, birds and sweetest of flowers Making this heart glad in this world of care, Soon this sunshine will make the day hazy And then oh, woe we be lazy.

Mrs. Effie Davis went to Hickman shopping last week.

Mrs. J. McClellan and children went to Hickman one day last week.

Mrs. W. B. McGeehe will go to Bartlett firm next Monday to take the pupils of her niece, Miss Smith.

"Many hands make light work." The men residents of Rush Creek have been putting a new fence around the church yard this week and making other improvements.

We forgot to make mention of the Embroidery Club last week which met with Miss Katie Linsford. Owing to bad weather they failed to meet with Miss Owens last Tuesday.

Again has the pessimist been beaten in his attempts to predict starvation, again has an all-wise Providence shown by His handiwork that there is really something in this world to maintain, cheer

and brighten the lot of man. God be praised. He can alone know what is best for his children. It is an unkind heart that fails to appreciate the blessings of earth and the promise of heaven and the great and grand privilege of living and enjoying the beauties of nature.

The members of Antioch church will meet Thursday and arrange a program for children's services and will name the day for the services later.

Dr. Jacob Ditzler held an exceedingly large crowd spell bound for 50 or 60 minutes here Sunday. The Dr. shows his age in looks, but his mind seems to be very young and strong. His humble servant could not see but what he was just as quick and glib as he was twelve years ago when he and Elder J. N. Hall debated at Crystal.

THE DEAD.

Charles T. Nichols.

Charles T. Nichols, aged about 75 years, a former resident of Hickman who will be remembered by nearly everyone in this vicinity, died at his home in Leno, Texas, on April 19 after a long and lingering illness of consumption. Besides a widow he leaves four children and three step children. James and William Nichols, sons of his first wife; Charles Jr., and Mrs. J. D. Soper, of Yaelta, Tex., children of his second wife; G. B. Terrett, and Mrs. J. P. Ored, of Hickman, and J. K. Terrett, of Stephenville, Tex., step children. Deceased came to Hickman in 1877 and settled on Samaras Ridge, where he lived for eleven years. He moved to Hickman in 1878 during the yellow fever epidemic, and shortly after assumed the management of the old Hickman House, which he conducted successfully for several years. In 1891 he moved to Texas, where he lived until his death. Mr. Nichols had been a sufferer from consumption for at least 25 years, and his death from the dread disease had been several times predicted. But each time he seemed to take on a new lease of life and, by waging a constant battle against the disease, succeeded in delaying the fatal hour for years.

The family left by Mr. Nichols is well known throughout the region and has the sympathy of all in their bereavement.

Mrs. Alf Harris.

Mrs. Alf Harris, wife of Capt. Alf Harris, aged about 65 years, died Monday morning after a lingering illness from cancer. The remains were taken to Spangville, Ky., Wednesday for interment. Three children, Dora and Mrs. Mattie Richardson, of Hickman, and Mrs. Emma Mitchell, of Blytheville, Mo., survive her, besides her widower. Deceased moved here from Spangville some thirty years ago, and has lived here continuously since. She was an excellent woman and had made many close friends who feel her loss quite as keenly as the family. She was a member of the Methodist Episcopal Church, and was one of the old residents here, and had the respect and esteem of the entire community. He is a part owner of the local business of the firm of Chapman & Harris, owners of the "Shilo" and other craft of a like nature, and has the confidence of all his fellow citizens. In his affliction he has the condolence of a large number of friends.

STATE LINE ITEMS.

Smart Footwear

FOR SPRING AND SUMMER SERVICE. Our shoe section is now stocked with all the new and fashionable shoe ideas of the season. We've aimed to give you as much style and a better quality at a lower price than other shoe stores. That we have succeeded is best attested by the superlative lines that now await you here.

Our Women's "Dorothy Dodd" Shoes and Oxfords Are daily the subject of much praiseworthy comment at the hands of pleased customers. They contain more style than any similar priced shoe made. We have them in patent kid, vici kid, dull kid—in the new Gibson ties, low button or oxford—French, Cuban or military heels. Ask to see them the next time you come. **Oxfords \$2.50, \$3, Shoes, \$3, \$3.50**

Florsheim Shoes and Oxfords One of the prominent features of our shoe department is a large assortment of high grade stylish, serviceable footwear for men. We have them in all leathers, Patent Vici, Pat Chrome, Vici Kid, Box Calf and Tans, in all the newest shapes, from **\$3.50 to \$5.00**

Bench Tailored Clothing.

"Sterling" Clothes are "Bench-Tailored."

Sterling Clothes

Are ready to put on. They are intelligently designed, tailored on the bench and finished by hand. The coats are absolutely shape retaining, and are so warranted by the makers. In fact Sterling clothes are of the same materials as the best merchant tailors show you—the same snappy designs—the same fine workmanship—but are not the same in price by about one-half. That's why buying Sterling clothes is the thrifty man's way. There are few men, be they tall, short, lean, or of regular proportions whom Sterling clothes will not fit as well, even better, than some tailors' work.

We are showing the very best materials in a large range of patterns from **\$8.50 to \$16.50**

My Breath.

Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing those diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nervous system.

I know that Dr. Miles' New Heart Cure is a great cure for shortness of breath, because I suffered from it for many years. I suffered from shortness of breath, smothering, and I was in my left side. For months at a time I would be unable to lie on my back, and I lay that on my back would nearly smother. A friend advised me to try Dr. Miles' New Heart Cure, which I did with good results. I began to improve once, and after taking several bottles of Dr. Miles' New Heart Cure the pain in my side and smothering symptoms vanished. I am now entirely well. These diseases are a thing of the past. —P. P. LILIAN, Middleburg, N. C.

Postmaster J. T. Stephens attended the republican state convention in Louisville Monday.

J. H. Shelton, R. L. Smith and Judge Hulbeck, of Clinton, are in attendance at circuit court.

Attorneys Ed Thomas and T. N. Smith came in from Fulton Monday evening to attend circuit court.

WANTED—White woman to do the cooking and housework. Good home and good wages. Address P. O. Box 268.

Mrs. R. M. Ider and daughter Miss Jessie have returned from a visit of a few days to friends and relatives in Paducah.

The Methodist church will have their annual Children's Day service the third Sunday in this month, May 15. They are now preparing a nice program consisting of music and recitations for the occasion.

Dr. and Mrs. Lou Taylor, of Claver, are in the city this week. Mrs. Taylor is visiting friends, while the doctor will assist circuit Clerk Morris in his duties during the session of court which opened Monday.

Baizer & Ladd's this week put a fresh coat of paint on their store building on Clinton street, new awnings were recently put up, and other improvements made that now makes this store one of the most attractive in the city.

In order to rid the town of a very undesirable element, the officers of South Fulton have begun to put to work all persons convicted of violations of the town ordinances who are unable to pay their fines. The work will be done on the streets of the town.

WANTED—Special representative in this county and adjoining territories, to represent and advertise an old established business house of solid financial standing. Salary \$31 weekly with expenses, advanced each Monday by check directly from headquarters. Horse and buggy furnished when necessary; position permanent. Address Hesse Bros. 100 Monroe Bldg., Chicago, Ill.

W. P. and Henry Taylor, two of Fulton's most substantial business men, were in town Monday on business. W. P. Taylor lived in Hickman for many years, previous to his removal to Fulton and is well known by everyone in town. This is his first visit since a year ago last fall, and he commented very freely upon the rapid strides our town is making.

C. A. Holcombe, the pioneer druggist of Hickman, has been making some improvements on his building on the corner of Clinton and Chamberlain streets, that have added materially to the appearance of the store. It has been erected and many interior improvements made. With the improvements on Clinton street buildings that have been going on of late, the street now presents a clean and prosperous appearance.

Albert Brown, who for the past year has been employed by Contractor Spedlin on the court house and other buildings, was taken very ill ten days ago with sciatic and muscular rheumatism. For some days he was close to death's door, but he fought off the grim monster, and on Saturday was taken to his home at Waverly, Tenn. by Mrs. Beasley, the lady who raised him. A later report says he is getting along nicely and will soon be able to stand.

Work was begun Monday morning on the building of Charles Baltzer, which will be erected on the lot on Clinton street between the office of the Hickman Wagon company and the Farmers and Merchants bank. He is doing the work by the day, and expects to have it completed in eighteen or twenty days. The building will be two stories, the lower part being fitted as a store room and the upper part for offices, a number of which have already been spoken for.

A report is in circulation that there is soon to be established a wagon transfer line between Hickman and Fulton which will make a business of hauling freight between the two towns. Persistent inquiry failed to reveal who was behind the scheme, but it is understood that the new wholesale grocery, recently organized in Fulton, will put on a number of wagons to haul its freight from here to Fulton and do other hauling if called upon to do so. It is thought that a saving in freight can be made by having goods shipped to Hickman by the river and hauled to their destination by wagon. At any rate the scheme will be tried, according to the best information obtainable.

A STABLEMENT TEXT.

To save a life, Dr. T. G. Merritt, of Mo. Neophony, Pa. made a startling test resulting in a wonderful cure. He writes: "A father was attacked with violent hemorrhages, caused by ulcers of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The two were taken in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at all druggists.

PIONEER HARDSHIP.

Hard Work and Privations of the Hardy People Who Settled the Western Country.

The unpleasant and often perilous journeys that the early settlers of the west were able to take to carry their produce to market or to procure provisions, are described in "Pioneers of the West." The writer tells of one occasion when he and his 15-year-old son were going to mill. There was a good deal of snow on the ground, and the weather was intensely cold.

We were plodding along slowly behind the wagon up over the hills to the north and on the divide, says the author. The snow was six or seven inches deep, and the track had not been broken; for it was a road seldom traveled, there being no settlers after we got up out of the little valley until we came near Oakdale, away into the adjoining county.

Of course, we used to call them roads, but they were merely the trails and turf worn away where the burk or oxen walked, with a ridge between, two narrow black lines like a couple of snakes stretching and winding across miles of open prairie.

The snow made it very hard to walk, and it was too cold to ride. We tried to walk in the tracks of the oxen, but that made it still harder. We had gone but a few miles when our hands became so completely benumbed that all feeling left them. We usually made our own mittens out of old cloth, of which we would have two or three pairs sometimes, one over another. But for all that it was the hardest thing possible, sometimes, to keep them from freezing.

As the morning wore away we began to feel hungry, and I never forgot the pangs we were in. We had along with us some dry soda-biscuits cut in two, with a little butter spread between, in a common four-bag. They occupied but a small space, of course, so we tied the bag in a knot instead of tying it with a string. We tried to untie it, but could not do so with our mittens on, and cold it was too much for them, but with our hands out some difficulty, for our hands were nearly closed and neither of us seemed to have the use of them. We fumbled and fumbled for awhile, but finding that we could not do it that way, we held down the bag and pulled the knot apart with our teeth. Having done this, we ate four of the biscuits, which rattled almost like so many flint pebbles, we held one up between our two fists, and gnawed away at it in that way.

There being no settlers for many miles, there was no place that we could put in and stay for a time, and get thawed out, as we used to say. This was the hardest part of it; for one might manage to endure such a severe frost for an hour or so, or perhaps three hours; but when it had to be borne a whole day, and perhaps away into the night, it took considerable courage to keep up.

CRIMINALS' DEFENSES.

Officers Against the Law Set Off New Plans in Their Own Behalf.

"The world," said one of the most distinguished criminal lawyers at the Chicago bar the other day, before the Tribune, "has moved in everything except defenses. My meaning is not clear. I mean to say that during the last hundred years, or perhaps three or four hundred years, the only class which has not progressed with the rest of the world is the criminal class."

"They have improved their appliances. I know. Burglars' tools are better made now than they used to be. Criminals know their (raz) better, and once let them fall into the hands of the police and they are as helpless as they would have been had they been arrested during the nineteenth or even the eighteenth century."

"The only three defenses that are used to any extent are those shopkeepers ones, the alibi, mistaken identity and insanity. Sit in any of the courtrooms in the criminal court building on the North side and listen to the defenses that are made."

"Examine these cases where the prisoner is guilty. How does he defend himself? He tries to prove that he was not at the place where the crime was committed, or he puts in the plea of insanity, or he tries to prove that the witnesses against him should not believe their own eyes and that they took somebody else for him."

"Judges on the bench have told me they would be started out of their composure if a professional criminal was to try any other defense."

German Southwest Africa. German Southwest Africa is now being recommended by German physicians as a permanent home for consumptives and young men with tendencies in that direction. The winters are like those in southern California—the air pure and dry, the sky always blue, and the temperature moderate and inviting to life outdoors.

THE HICKMAN COURIER.

MRS. GEO. WILSON, Lessee and Editor.
PUBLISHED EVERY FRIDAY.

History repeats itself. The orchestra on the "J. S." played "Little Annie Rooney," but the boat got back without serious mishap.

William Randolph Hearst's boom may be bursted, as is claimed, but from all appearances the barl holds out to flow a stream of golden shekels. While there's coin there's hope.

Like all things with an adhesive force, the Parker boom in Kentucky has attracted unto it self some questionable things, but the convention will clean it of all barnacles and other impediments.

The drug war in Hickman goes merrily on, without any apparent signs of cessation. Some of the prices advertised are way below cost, and one article is selling at 17 cents below its actual cost, without computing the freight charges. Every time a bottle of this specific is sold the druggist goes in to his pocket for 17 cents and the freight charges. It is certainly a temptation to try and force a spell of sickness—it is so seldom one has a chance in this line.

Mr. Bryan insists on naming the democratic nominee for the presidency. If Mr. Bryan is a democrat—and we have no reason to doubt that he is—and believes that the majority should rule, we have no objection to his naming the candidate. If, however, he desires to force on the people a candidate who is wanted only by a very small portion of the great democratic party, there is every reason to curtail his talk. In other words, if he wants to name Mr. Parker as the candidate, well and good; if he wants to name Mr. Hearst, sit down on him.

The Supreme court of the state has decided that the law creating Beckham county is unconstitutional, and in consequence of such decision the grand old commonwealth will be obliged to go rattling and slamming down through the aeons of time with naught to commemorate the present executive but the dull pages of history. We don't know that the Supreme court is in collusion with Colonel Bill Thorne, but we opine that the decision has caused the radiant countenance of the lieutenant governor to become afflicted with a smile that won't come off. No Thorne county, no Beckham county.

Louisville printers are on strike for shorter hours and a raise in wages. The employing printers, through their organization, the United Typothetae of America, are resisting the demands of their employees. They are willing to grant an increase in wages and to give a promise of shorter hours in the near future, but deny their employees recognition as a union, and demand the privilege of hiring men at will, whether they be union or not. In other words the employers have a right to organize to keep the laborer down, but the laborer has no right to organize to fight them or to try to better his condition. With the employers holding such arbitrary views regarding workmen and their rights, it is any wonder that strikes occur, and that the question of capital and labor is no nearer a settlement now than it was a decade ago?

The court of appeals has decided against auditor's Agent Lucas in his suit against the banks of the state, wherein he tried to collect several hundred thousand dollars for the state, reserving a

good fat percentage for Mr. Lucas, and all similar suits have been ordered dismissed. Had Mr. Lucas made an effort to collect these various sums during the tenure of office of the auditor who appointed him we dare say that he would at least have been accredited with sincerity in the attempt to collect money due the state. The fact that he waited until his position was placed in jeopardy, and he no doubt saw that he was soon to be succeeded by an appointee of the present incumbent, gives his action the appearance of trying to get all he could out of the state before he released his position, irrespective of the people or the inconvenience he might cause them, to say nothing of the expense attached to the fighting of the suits. Mr. Lucas has in no wise helped himself nor his friends in this matter.

A meeting of the state democratic executive committee will be held today, and one of the most important questions to be decided will be the manner in which delegates to the state convention are to be chosen. As a majority of the committee have heretofore been in favor of the precinct primary, it is reasonable to suppose that that method will be employed. Having heretofore been earnest advocates of the primary, we do not see how the committee can consistently decide upon any other method. Any other would not only be inconsistent, but it would show that the committee feared the voice of the people in the matter of selecting delegates.

The American Society of Equity in Fulton county was successfully launched at a meeting held at the court house last Wednesday night. Since that time various meetings have been held in the county with the result that there have been several unions established throughout it, each having a working membership. As the objects of the society become better known, the membership will grow and its work become more effective. There is no question but that the farmers, by organization and an intelligent application of the forces at their command, can accomplish wonders in the way of bettering their condition. The chief recommendation of the American Society of Equity seems to be that its sole object is to attend strictly to the business of the farmer. It is willing that other concerns fit the demands of their products, but demands the same right for the farmer. He has never set the price upon his produce, and, although the right of others to do so has always been conceded—after they had become powerful enough to enforce it—the farmer has always been denied it. The reason is apparent: he has never been organized nor placed in a position where he could enforce a demand for a recognition of his rights. Only by banding themselves together as one man and insisting upon their rights—refusing to give their produce to the world until it recognizes their right to set the price upon the product of their labor—can hope for relief be entertained. The American Society of Equity now numbers over 100,000 members, and its promoters believe that it will have a million before the close of the year. It is a business proposition to farmers, and every farmer should investigate it. When he does he at once becomes a member.

CHIEF HIS MOTHER OF RHEUMATISM.
"My mother has been a sufferer for many years with rheumatism," says W. H. Howard of Hubbard, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried. In fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by T. T. Swayne.

Use Sunshine Flour—done better.

Will Build a Levee.

It is believed by parties interested in West Hickman that the levee talked about so much last fall, from Buchanan's corner to a point beyond the Mengel Box Factory, will surely be built this summer and fall. In conversation with one who was one of the projects most earnest supporters, we were informed that the agitation had reached a point where something tangible was sure to result in the near future. It is believed that the railroad company, which was more or less responsible for the abandonment of the scheme last fall, has revised its decision in the matter and is now thought to be heartily in favor of it. The railroad company will raise its tracks from Buchanan's corner to a point where the Mengel property begins. The elevation will be sufficient to withstand any race to which the river is liable to go and will effectively protect all property behind it. Beginning at the Mengel property the levee will be continued past the plant and join with the old levee at a point below the Ellison property.

The local share of the expense will be borne by the railroad company and the Mengel company, but individual property holders will be asked to contribute a pro rata of the expense, according to their holdings. It would be useless to enumerate the benefits to be derived from a good levee at this point, as the people who live in the region subject to overflow, or the owners of the property, know better than we can tell them of the dangers and damages that are encountered every spring by the rising of the river. To say that the value of the property would be increased 100 per cent is a conservative statement, and there are many who place the increase at 200 and 300 per cent. That portion of the town is rapidly becoming filled up with new citizens who have come here to accept positions in one or the other of our many industries, and they have come to remain permanently with us. They desire homes near their places of employment and would, no doubt, be willing to bear their share of the cost to make that portion of West Hickman subject to overflow safe from the encroachments of future visitations of high water. They would buy property and build homes in West Hickman were there any assurance that it would not be washed away, but without such assurance they remain renters. If West Hickman is ever to attain any growth in the near future a levee that will afford protection will have to be built. With the building of the levee, as now seems certain will be done, there is nothing that will prevent that portion of the town becoming a most desirable section. Some of the prettiest sites in the city are located there, and would need but little alteration to make them the most desirable. There is but one objection to that part of the city, and that is the frequent overflows to which it is at times subjected. With this feature eliminated by the building of a levee sufficiently strong, there is every reason to believe that West Hickman will in time become the most densely populated portion of the city.

George Beck and a few of his friends went on Tuesday, in his boat, to try a new gasoline engine he had just completed. When they got above town a little way the engine refused to work and they drifted down the river about four miles before they could get to the shore.

Helm & Ellison, the new drug firm, several weeks ago contracted for an "Avenger" soda fountain with the American Soda Fountain company, which is to cost \$1800. They look for its arrival most any time now, as it was due the first of the month.

The Louisville Times of Saturday printed an excellent likeness of Miss Marie Brevard, of Hickman, recently appointed maid of honor for the Kentucky Confederate association, which will attend the fourteenth annual reunion at Nashville the 14th, 15th and 16th of this month.

Back Fields, a "care nuff bad nigger" who has been serving a sentence in the county jail here of nearly four months, was taken to Fulton last Saturday by Sheriff Carpenter and turned over to officers from Jackson, Tenn.

Fields wanted there to answer charges of breaking into box cars and stealing therefrom. He made a bluff that he would not go without a requisition, but when the officers went for one he changed his opinion and decided to go.

J. R. Miner, master commissioner of Fulton county, was in town this week on business connected with the circuit court. Mr. Miner called on the Courier and informed us that he would in all probability make the race for county clerk at the election in 1905. He also said that it had been stated that he would not run, and he wanted this statement corrected. Mr. Miner is very well known throughout Fulton county and has all the qualities and attributes that would make a good clerk. Should the people elect him, they will no doubt have a faithful and efficient officer. He is an expert no-

minant and has other qualities that recommend his candidacy to the voters of Fulton county.

Frank A. Lucas, auditor's agent, was in the city last Thursday on business connected with the suits recently instituted by him against the Hickman and Farmers and Merchants' banks, wherein he endeavored to collect some back taxes claimed to be due the state. The recent decision of the Court of Appeals, to the effect that the statute of limitations barred any action now on the part of the state or its representative, and its further holding to the effect that the tax levy as made by the regularly constituted authorities was final, and from which there was no appeal, caused him to cause the suits to be dismissed. He left on Friday for his home in Paducah.

New Factory.

It has been rumored this week that the Neapel Company is soon to begin extensive improvements and additions to their plant here which will cost thousands of dollars to complete. The exact nature of the additions or new plants could not be ascertained as the matter is yet under consideration. This much, however, is known: C. O. Messel has for the past several weeks been in Memphis, Cairo and Hickman, seeking the best location for the contemplated plants. It is definite that he decided that Hickman was the best location, and that it was here they would be built. Negotiations are now under way to perfect the arrangements, and it will be known in a week or two what they will amount to. Manager C. L. Walker, when approached on the question, said that he could give no information at present, but that he would give the information to the public as soon as a decision had been reached.

There is another well founded rumor that a citizen of Hickman is looking for a suitable location for a hoop, stare and slack barrel company now located in the upper part of the state. Nothing definite could be ascertained, but as all the parties interested in these new concerns are enterprising men, who have the means to accomplish what they set out to do, it is not venturing too far to say that another boom for Hickman is brewing.

Mrs. John Bright and her daughter, Sue, of Union, Tenn., are visiting relatives in the city this week.

Country Advertising.

While on a drive to the country Sunday we were much taken by the advertising enterprise of our merchants, much of it being done on fence rails. We saw where if we wanted good photos we should go to "Perry, the photographer" for them. Of course Mr. Perry is in business somewhere in town, but as the sign did not say where we are unable to patronize him. In another place we saw that Scores Bros. advertised something, but just what could not be made out. "J. W. Witt sells sewing machines," according to the fences, but we cannot find his place of business. Morris & Phillips are an drapers and furniture dealers in Hickman, but we have not been able to locate them. Young & Son also advertise, but what their specialty is or where they do business is not known. Wilson's Book store is also located somewhere in Hickman and no doubt does a good business, wherever it is. "Shaw sells everything," and so on all down the line we found the advertisements of who were doing business in our town, of whom we knew nothing. It was hinted by one of our party that perhaps these firms no longer did business here, but that can hardly be. No man would advertise a business after he had left it, and so we came to the conclusion that these firms were still doing business here.

The excursion on the steamer "J. S." which left here at 8 o'clock last Friday night, was one of the nicest that has ever been run out of Hickman. About 400 people took advantage of the occasion and went. The night was about the most pleasant that we have had this spring, and although a trifling cool for those who went just for the ride, could not have been better for the dancers had it been made to order. The music was all that could have been desired, the floor was in prime condition and the crowd was of the best. That has ever been gotten together in Hickman. The run to Columbus was made in a little less than two hours, beating the record of the Stacker Lee about 15 minutes. At Columbus the crowd was swelled another hundred and these added new life to the party. Good order prevailed throughout the trip, there was no unseemly conduct on the part of anyone, and no gambling devices of any description were in evidence.

CIRCUIT COURT.

Circuit court met Monday of this week Judge Bagg presiding. On that day nothing was done but empanel the grand jury, which is made up of the following gentlemen: C. C. Smith, foreman; W. J. Harper, J. W. Hland, W. L. Benthall, W. R. Watson, A. O. Caruthers, J. M. Roper, E. N. Sanson, W. H. Paulsgrove, B. C. Stubbs, D. D. Davis and J. A. Kingston.

Tuesday morning the petit jury was empaneled. It is made up of the following gentlemen: R. E. Kelly, J. A. Thomas, W. F. Edwards, H. Y. Anderson, James Hunt, E. D. Wallace, Joe Ballard, J. F. Roehart, W. J. Cartwright, D. J. Thomas, J. W. Parrell, F. B. Atteberry, J. M. Kirk, C. O. Donohoe, Lon Jones, H. Binford, W. J. Monan, D. O. Meacham, J. C. Browder, Paul Davis, S. H. Linder, W. H. Mathis, J. H. Provow, and G. H. Walker.

In the case of the commonwealth vs. Arthur Shalson, on a charge of grand larceny, defendant failed to appear, and his bond was forfeited.

Robert Collier, charged with a violation of the local option law, was tried and found not guilty. The case against Ira Cord, on the same charge was dismissed for want of evidence.

Jim Graham, for disturbing public worship, was found guilty and fined \$10 and cost.

Bob Heatherly and Henry George, charged with gaming, were fined \$30 and cost each.

The remainder of Tuesday was taken up in securing a jury to try the Potts case. The jury as selected and sworn in by Judge Bagg is as follows:

J. A. Thomas, J. W. Parrell, J. M. Kirk, J. Monan, J. W. Prorow, W. T. Selberry, J. L. Dodson, J. W. White, H. L. Carpenter, Rodney Jones, John Richards, and Marion Provow.

Wednesday morning the taking of evidence began, and continued throughout the day. The evidence was for the most part of a contradictory nature, and nothing conclusive against the defendant was introduced. About 5:30 both sides had introduced all the witnesses, and the court adjourned for supper.

A night session was held at which the pleas were made. Attorney Sam Crossland, for the defense made the opening address and for an hour and a half reviewed the evidence, and showed in a conclusive manner the failure of the prosecution to make out a case against his client. His speech was a very able one and effective, as the verdict of the jury shows. He was followed by Prosecutor Hunter, who addressed the jury for an hour or more. Many points were made in his argument and he got all there was of the evidence. He finished his plea about 10:15 o'clock and court then adjourned.

Court convened Thursday morning about 9 o'clock. Judge Bagg read his instructions to the jury, who retired to their room at once. Two ballots were taken, the first resulting in 11 for acquittal and 1 for conviction. The second ballot resulted in unanimous verdict for acquittal. The jury was out only about 30 minutes, and upon the rendition of their verdict were thanked and discharged.

First Candidate for Delegates.

The first announced candidate for delegate to the Democratic national convention from the First congressional district is the Hon. Jake Corbett, of Wickliffe, formerly of Paducah, but now county attorney of Ballard county. Mr. Corbett advocates the nomination of Judge Parker for president, on a platform of the fundamental principles of Democracy. With such a candidate and such a platform, it is his expressed opinion that victory will be easily accomplished.

Mr. Corbett is a prominent Democrat in his county and in West Kentucky and has done efficient service for the party. He is an orator and campaigner of tried ability.
